F

Ê p 965 Å •

A 10x10 grid of squares. The top-left corner is filled with a black triangle. The triangle's hypotenuse runs from the top-left corner to the square at row 4, column 7. The squares above and to the left of this diagonal are shaded gray, while the squares below and to the right are white. The grid is divided into two sections by a vertical line at column 7. The left section (columns 1-7) contains the triangle, and the right section (columns 8-10) is a plain white grid.
